BASICS

- ❖ Fabrics will be paper-backed by Trend and therefore cannot be characteristically sheer. If a fabric received by Trend is determined to be unprocessable, the customer will be notified immediately and the fabric will be returned.
- ❖ All trims (cording, tassels, ribbons, etc.) must be supplied by customer with clear instructions for placement/application. If trims are not supplied, Trend will process the order without them. No trims will be provided by Trend unless pre-arranged.
- ❖ All Trend products are hand-made and vary slightly. Trend does not guarantee the matching of prints/patterns or precise positioning. Every effort will be made to align fabrics for best presentation within the constraints of the fabric yield and production parameters.
- ❖ All excess fabrics and trims will be included with shipment of merchandise to customer.
